

RYNA MEDICAL UK LIMITED – MODERN SLAVERY MONITORING

Ryna Medical UK Limited is committed to driving out acts of modern day slavery from within its own business and from within its supply chains. The company acknowledges responsibility as stated in the Modern Slavery Act 2015 and will ensure transparency within the organisation and with suppliers of goods and services to and on behalf of the organisation.

The organisation structure of the business is an SME and our core business is importing and distributing medical equipment to the NHS and other healthcare facilities, including training, installation and maintenance services. Within the supply of these goods and services, there are certain relationships with external businesses that include the manufacturers of the medical equipments and the subcontractors that works on our behalf. This makes up the supply chain of Ryna Medical UK Limited.

The products supplied are manufactured to order. Our suppliers manufacture all goods in-house by staff who are experienced and need to be specially trained to undertake the task required. However, even though the possibility for modern slavery is very slim in our supply chain, Ryna Medical conducts regular site and factory visits to assess and ensure proper and safe working condition for the staff involved. Ryna Medical will continue to monitor this and take appropriate action as identified..

Ryna Medical will report on, review and revise this policy as often as may be appropriate.
