

## **RYNA MEDICAL UK LIMITED – MODERN SLAVERY STATEMENT**

Ryna Medical UK Limited is committed to driving out acts of modern day slavery from within its own business and from within its supply chains. The company acknowledges responsibility as stated in the Modern Slavery Act 2015 and will ensure transparency within the organisation and with suppliers of goods and services to and on behalf of the organisation.

The organisation structure of the business is an SME and our core business is importing and distributing medical equipment to the NHS and other healthcare facilities, including training, installation and maintenance services. Within the supply of these goods and services, there are certain relationships with external businesses that include the manufacturers of the medical equipments and the subcontractors that works on our behalf. This makes up the supply chain of Ryna Medical UK Limited.

As part of the Company's due diligence processes in slavery and human trafficking, the manufacturer and subcontractor approval process incorporates a review of the control undertaken by our manufactures and subcontractors. Imported goods from sources outside the UK and EU are potentially more at risk of slavery and human trafficking issues. The level of management control required for these sources will be continually monitored.

Ryna Medical will not support or deal with any businesses or companies knowingly involved with slavery or human trafficking.

The Company Directors and Senior Management shall take responsibility for implementing this policy statement and its objectives. They shall provide adequate resources (training, etc), and investment to ensure that slavery and human trafficking are not taking place within the organisation and its supply chains.

Ryna Medical will report on, review and revise this policy as often as may be appropriate.
